SUMMARY

Final-year Electrical Engineering student at SGSITS Indore with hands-on experience in building full-stack web applications, automation bots, and data pipelines. Proven ability to apply problem-solving and software development skills through internships and projects involving Zoho, Frappe, and API Handling. Now seeking roles in field of AI/ML to build scalable and impactful tech solutions.

- Strong communication and leadership skills through team captaincy and internship coordination.
- Proactive problem-solver and fast learner with a proven record of handling cross-functional tasks

WORK EXPERIENCE & SKILLS

Data Analyst and Automation Intern

May 2025 – July 2025

Weaddo: Business Acceleration Studio

Gurgaon, India

- Analyzed, structured, and interpreted large datasets for performance optimization.
- Engineered automation bots using Python and APIs to streamline internal workflows.
- Integrated workflows using Zoho Flow, and explored Frappe framework for internal tool development.

Skills and tools: Python, NumPy, Pandas, Scikit-learn, Zoho Flow, Frappe Framework, APIs & Webhooks, Automation Bots, JSON & Web Data Handling, PostgreSQL, SQL, Big query.

Web Development Intern

June 2024 – July 2024

Apollo Health City

Hyderabad, India

- Reduced page load time by 30 % by optimizing JavaScript and image loading sequence.
- Testing, and maintenance of website.

Skills and tools: HTML, CSS, JavaScript ,learning -React.js, Node.js, Express.js

HOD student feedback department and physics

October 2022 – June 2023

Clavictor Academy Pvt. Ltd

Remote Internship

- As a Department head I monitor, lead, train, and manage staff on student feedback works.
- Teach Physics For JEE.

PROJECTS

Black Friday Sales Prediction

NOVEMBER 2024 – JAN 2025

Machine Learning Project

Python, Scikit-learn

- Analyzed 15+ customer demographics and purchase behavior to predict sales trends.
- Applied feature engineering and trained regression models to forecast purchase amount reducing error upto 20 %.
- Improved model accuracy to 85 percent using Random Forest and Hyperparameter Tuning.

IMAGE PROCESSING

Aug 2024 - Nov 2024

MATLAB Project

MATLAB Software

- Learned and implemented the basics of image processing .
- Enhancement of image, noise removal, etc. in MATLAB software enhancing quality by 60%

SMART GEYSER PROTECTION SYSTEM

May 2024 – June 2024

Embedded Systems - IoT (Internet of Thing)

Arduino Uno, ESP8266 Wi-Fi Module, Embedded Systems

- An IoT-based safety system to prevent dry heating, overheating, and electrical hazards in geysers saving upto 85% energy.
- Enabled remote monitoring and control via mobile app using ESP8266 Wi-Fi module.
- Integrated temperature sensors, water level detection, and auto cut-off using Arduino and relay modules increasing safety rating by 8%.

COURSES AND CERTIFICATION

- Complete Python Bootcamp basic to advance – Udemy
- Full-Stack Data Science and AI– Naresh I Technologies – (On Going)
- Complete A.I. and Machine Learning, Data Science Bootcamp – Udemy– (On Going)

EDUCATION

Shri Govindram Seksaria Institute of Technology and Science (SGSITS)
B.Tech in Electrical Engineering

Indore, India
AUG 2022 – May 2026

St. Mary's Convent Sr. Sec. School
12th(84%) and 10th(86.2%)

CBSE
2021 and 2019

POSITIONS OF RESPONSIBILITY

- Sports Representative – SGSITS – July 2024–Present
- Team Captain – Swimming and Chess – SGSITS – Aug 2023–Present
- Content Head – NSS – April 2023–Present
- Campus Ambassador – IIT Indore – Lakshya – Nov 2023–Mar 2025

ACHIEVEMENTS

- Nomura KakushIn 9.0 – Semi Finalist – 2025
- Nationals in Swimming – (All India University) – 2025
- State level Swimming – Gold – 2025, 2024
- State level chess – Silver(Rated 2081) – 2024
- Nodal Lawn tennis – Silver – 2024
- BA synthesizer – Akhil Bhartiya Gandharva Mahavidyalaya
